

PNGD
DESIGNER GARDENS

Thanks to the nature of our work which is largely done from home, we are still able to continue designing gardens. New clients are welcome if you are happy for us to come and see your garden while practising social distancing; ideally access would be provided without entering the house. We are also able to take information from other sources such as photographs and Google Maps to enable us to continue our work. We are providing home consultation via phone or video call for those self-isolating. Feel free to discuss your options with Paula on 07968 200 363.
